

# Multi-Class Assignment - LinkTree Part 1

Through multiple classes, we are going to build a personalized LinkTree. A LinkTree is a website that has various links to your personal websites and pages. We will build out a LinkTree with the following pages:

- Index Page
- Contact Page
- Resume Page
- Gallery Page
- Cover Letter

## Assignment 1 (As A Class) : Resume

Start your resume page by doing the following:

1. Create a page 'resume.html'
2. Implement the html basic structure for your resume page (doc type, html, head, body)
3. Use header tags, unordered list, paragraphs, and strong tags to create several job descriptions
4. Try the horizontal rules to separate jobs

## Assignment 2 (Solo Assignment): Cover Letter

Create a cover letter as follows:

1. Create a following file, 'cover.html'
2. In the cover letter file, describe your cover letter with paragraphs, headers, and have an image
3. You can copy our image from LinkedIn to use in an image tag
